

Imitation Pearls

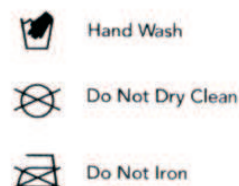

Certificates

Product certificate is relating to the company standard No. C1-Pb-2012

Directions for use

Specific properties of the products need to be understood: small pieces should be kept away from children (danger of swallowing and/or inhalation); larger glass products should be protected against breakage (danger of sharp pieces of glass).

Ecology

Estrella Es-Press manufacturing facilities utilize the latest environmentally friendly production technology. When used for their intended purpose all products are free of health hazards.

Product specification

Sizes and shapes are available in all colour shades (according to the colour card and the shape card), both loose or strung.

Owing to the used raw material and the technology of hand production a tolerance in colourfulness at the surface of beads is allowed.

In the case of the technology of dipping of the loose beads small collars and peeled rings next to the holes may appear.

Beads should be stored in a dry environment away from aggressive chemicals.

Warning

Gradual fading and yellowing may occur as a consequence of long-term exposure to the sunlight. This cannot be considered as the quality defect.
