

DECLARATION of Conformity and Quality Control 2019

Producer

ESTRELLA ES-PRESS, spol. s r.o.
Těpeře 34, 468 22 Železný Brod
CZECH REPUBLIC (EU)
VAT: CZ47284609

Product specification and standards

a) Jewellery-waxed-beads, imitation pearls

Fashion jewellery components - waxed (imitation) pearls and beads, ie the glass base which is color-surface treated by so-called waxing (dipping technology).

a) One-component-resin, ENT (Estrella Nano Technology) coated beads

Fashion jewellery components - ENT surface coated pearls and beads, ie the glass base which is color-surface treated by one-component-resin technology.

Due to the raw material used and the technology of hand-made production, small irregularities on the surface of the pearls and tolerances in the shade of individual colors are allowed.

In the case of the technology of dipping of the loose beads small collars and peeled rings around the holes may appear.

These deviations are not to be considered as quality defects.

Damage may appear after exposing the beads to chemicals, excessive heat, hot water or abrasive friction.

For more details please see our certificates *Product certificate Imitation pearls* and *Certificate C1-Pb ENT*.

Declaration of Conformity

Production facilities and appliances of Estrella Es - Press, s.r.o. use the latest eco-technologies.

When employed according to their function and purpose, the pearls are completely environmentally friendly and health harmless. Products do not contain heavy metals: Cd, Pb, CrVI, Hg

The above mentioned products are in conformity with requirements specified in:

REACH (Lead and Cadmium content limits and Nickel release limits)

ASTM F2923-11 (Standard Specification for Consumer Product Safety for Childrens jewellery)

CPSC 13 CFR 1303 (Lead in a Surface Coating)

CPSIA (Consumer Product Safety Improvement Act)

SAFETY WARNING

Choking hazard. *Small pieces can be swallowed and/or inhaled easily. Keep them away from infants and small children.*

Broken glass danger. *Avoid rough treatment and protect the beads against breakage. Never wear or work with cracked pieces to avoid getting cut by sharp pieces of broken glass.*

Declaration of Quality Control

Estrella Es - Press, s.r.o. representatives hereby declare that the quality of our products is of our highest importance and that we follow strict quality policy to assure customer's satisfaction.

Our products are tested in accordance with standards for jewellery-waxed beads.

Every new decor subject to testing period before its release to the market and we perform quality control at regular intervals thereafter.

All employees of Estrella Es - Press, s.r.o. are instructed to follow the given production procedure unconditionally and hereby to avoid deterioration of quality by negligence during the production process.

Alongside with above written the character of production as well as the price level of our products does not allow to provide complex quality control of each produced batch.

We issue basic output quality control that occasionally cannot determine all of possible defects, especially those which show after some time of use of the product.

The hand made production of jewellery-waxed beads is a complex process composed by many different steps which involve participation of many workers.

Therefore, potential defects may be caused by an individual's mistake during the production process as well as rarely a modification of attributes of material that is supplied to us (such as raw glass bases and chemical components to be used for colour coating).
